Shine the light on productivity with the new Hilti task light SL 2-A22

Plano, Texas – Sept. 20, 2017 — The versatile new Hilti task light SL 2-A22 packs a whole lot of illumination into a very small package. Put it on the ground, hang it by its integrated hook, or hold it in a free hand to put the light just where you need it to get the job done.

The fully-adjustable LED panel rotates to provide 360 degrees to get the light where you need it and pivots so you can put 500 lumens of color-accurate white natural light exactly where you need it, while staying cool to the touch. A 3-position switch lets you select the right amount of light based on your needs.

The SL 2-A22 is ideal for lighting up dark work areas, inspecting paint and other surface finishes, and many other applications. It's backed by Hilti's 20/2/1 year warranty – 20 years of repair or replacement of defective parts; 2 years no cost repair including wear and tear; and a guaranteed 1-day turn-around on repairs* – so you can be sure it will be ready to go to work when you are.

For more information on Hilti task light SL 2-A22, please contact Hilti Customer Service. From the U.S., call Hilti, Inc., at 1-800-879-8000 or visit www.hilti.com; from Canada, call Hilti (Canada) Corporation at 1-800-363-4458 or visit www.hilti.ca.

*Some limitations apply. Contact Hilti for details.
