Introducing the Toro® Electric Swivel Ultra Buggy® e2500-TS

A Rental-Ready Game-Changer for Material Hauling

BLOOMINGTON, Minn. (January 30, 2025) — Toro is launching the electric swivel Ultra Buggy® e2500-TS at the ARA Show 2025, a game-changing material hauler designed to tackle labor-intensive tasks with unmatched precision and efficiency. Combining the industry-leading performance of the Toro swivel Ultra Buggy with innovative battery technology, this machine is built to address the needs of today’s rental market — simplifying material placement, saving time and reducing manual effort.

With 14-cubic feet carrying capacity, 2,500-pound load rating and up to eight-hour runtime, the Ultra Buggy e2500-TS is engineered to handle a wide variety of materials on demanding job sites — indoors or outdoors.

“For years, the swivel Ultra Buggy has been a rental favorite, offering unmatched productivity for contractors, municipalities, and landscapers,” says Katilyn Ingli, product marketing manager at Toro. “Now, with the Ultra Buggy e2500-TS, rental houses can deliver the same power and precision in an efficient, battery-powered model. It’s a machine that saves time, reduces labor, and keeps rental customers focused on what matters: getting the job done.”

Unmatched Features for Any Job Site

The Ultra Buggy e2500-TS is built to benefit rental houses and their customers by maximizing uptime, versatility, and ease of use. Its durable construction and operator-friendly design ensure it can handle the demands of frequent rental use while delivering exceptional performance on a wide variety of job sites. Key features include:

- **High Capacity and Power:** The Ultra Buggy e2500-TS replaces four to five wheelbarrow loads or two to three loader trips, significantly reducing trips and heavy lifting.
- **Compact Design:** At just 31.5 inches wide, it easily navigates tight spaces such as doorways, hallways, small rooms and gates, making it ideal for interior and outdoor projects.
- **Reinforced Track System:** Built to traverse rough terrain or debris on job sites with ease while minimizing turf disturbance.

- T-Handle Controls: Simple, intuitive operation that allows crews to master the machine in minutes — no special certifications required.
- Durable Performance: With a 2,500-pound capacity and up to eight-hour runtime powered by the Toro HyperCell® Battery System, it's built to work as long and hard as your crew.

The Ultra Buggy e2500-TS is a versatile solution for rental houses, meeting the needs of a variety of industries. For landscape and concrete contractor customers, it delivers heavy loads of gravel, sand, concrete and other materials with precision, combining the robust power of Toro's swivel Ultra Buggy with the intuitive control of the Toro Dingo® systems. Municipal customers can rely on its efficiency for park maintenance and public works projects, ensuring seamless material transport with minimal disruption to the surrounding environment. In interior construction, the Ultra Buggy e2500-TS excels at navigating tight indoor spaces while hauling heavy materials, simplifying even the most challenging jobs.

"Built for rugged durability, the new Ultra Buggy e2500-TS is ready to offer rental houses an equipment solution to tackle their customer's toughest jobs, from uneven terrain to confined interior spaces, delivering reliability and performance day after day," adds Ingli.
